**ACCESSION NUMBER:** 2005.22

**CREATOR:** Saturn Corporation

**INCLUSIVE DATES:** 1997

**QUANTITY:** 1.0 cubic ft. (1 box containing 13 volumes)

**LANGUAGE:** English

**ABSTRACT:** The Saturn Corporation was a subsidiary automobile manufacturer of General Motors that operated from 1985 until 2010. The EV1 was an electric vehicle developed by General Motors in response to California laws requiring a certain percentage of vehicles sold to emit no pollutants. Although marketed as a General Motors product, the EV1 was only available through Saturn lease agreements in California and Arizona. In 2001, General Motors announced that EV1 production would cease, and all vehicles were recalled once their leases ended. This collection contains a complete set of 12 repair manuals and a copy of the owner's manual, which were distributed by the Saturn Corporation.

**RELATED MATERIALS:** Related material held by The Henry Ford:  
-1997 General Motors EV1 Electric Coupe,
